A very informative program 'Waking up to climate change' was organized and conducted by AG Teachers college, Ahmedabad on 23<sup>rd</sup> March 2022 aiming at making the trainee teachers aware about the changing climate factors affecting the wildlife.

Mr. Rushi Pathak was our guest expert on wildlife who conducted this session, guided us, the trainee teachers of A.G Teachers college, our college was also the host for this programme and students from other B.Ed colleges of Ahmedabad also came to A.G Teachers college to attend this workshop.

The anchoring of programme was done very effectively by Presha Chauhan who along with Dr. K.H. Yadav green welcomed Mr.Rushi Pathak by giving them a plant, which is a tradition of eco club of A.G Teachers college. After a brief introduction of himself, Mr. Rushi Pathak went on to tell us how the wildlife is a primary indicator of climate change. Being an avid bird watcher himself, he correlated the climate change with how it impacts the aves and other wildlife.

He explained how Gujarat is becoming a home to migrating water birds that primarily depend on stagnant water bodies to hunt and survive. Thol lake in Ahmedabad which is a RAMSAR site is the primary site of nesting and migration of these birds. Here RAMSAR site refers to a wetland site designated to be of international importance under the 'RAMSAR CONVENTION ACT' an intergovernmental environmental treaty established in 1971 by UNESCO. After this our wildlife expert showed us various pictures and videos of different species of birds such as Flamingo, Pelicans, Ducks, Spoonbills and others. He narrated the lifestyle, food habits, mating patterns, nesting pattern of all these birds.

After giving us all this information our wildlife expert concluded the session by giving a short introduction of their organization 'RUSHI PATHAK WILDLIFER' which works for the welfare and rescue of endangered wildlife such as birds, black bucks and snakes.
