

7.1.6

1. Encouraging use of bicycles

Few college students and junior clerks commute by bicycle daily.

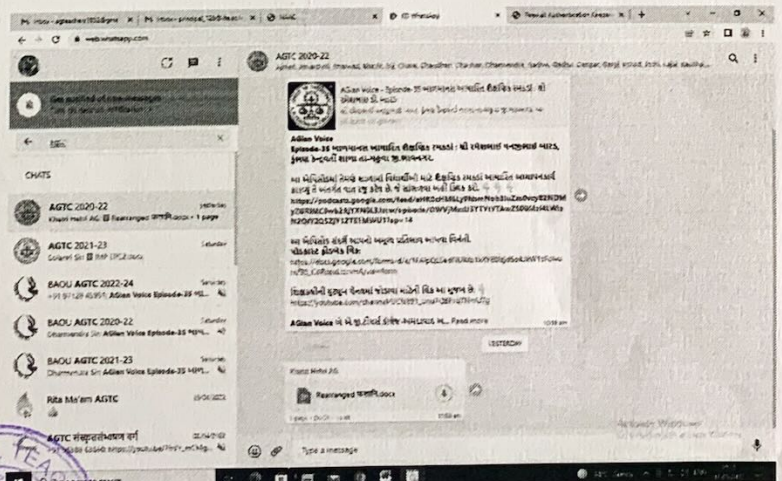

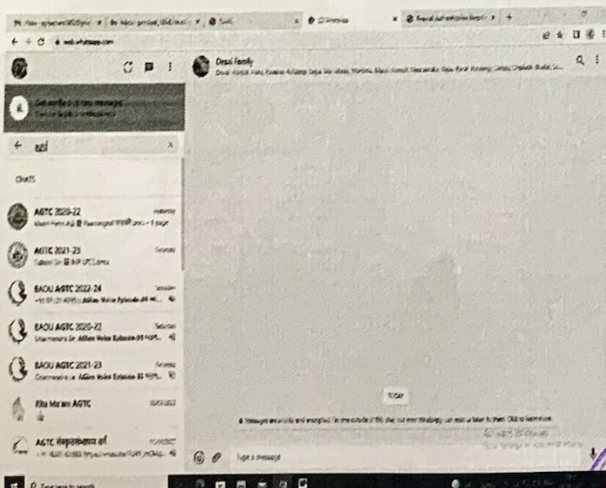

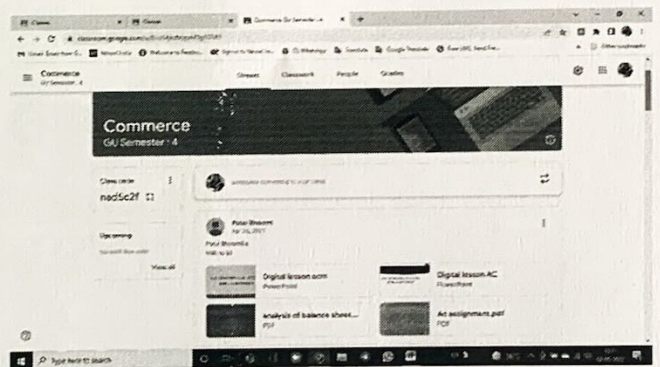

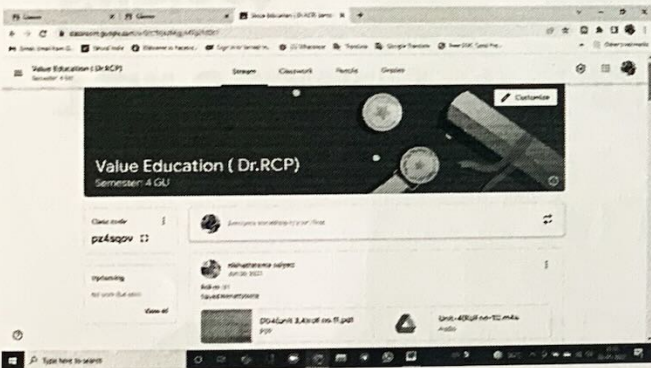

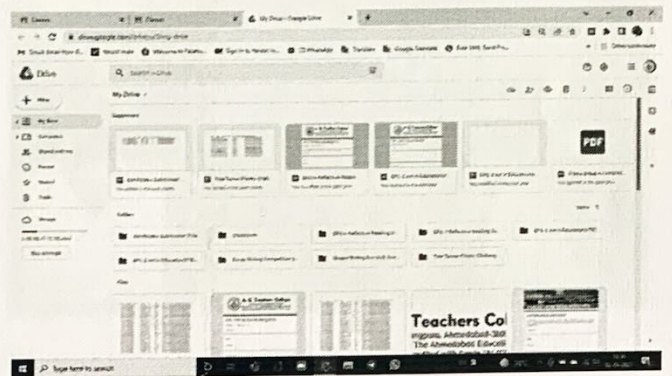

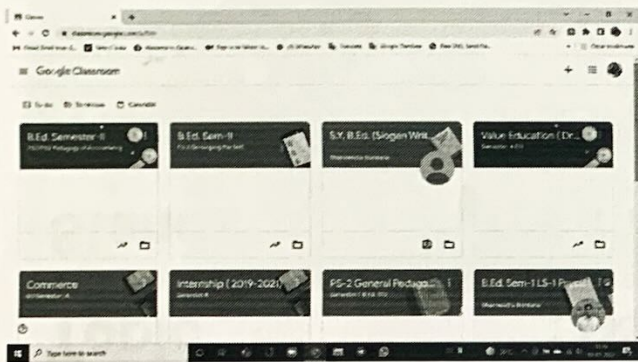

2. Develop plastic-free campus

Students and staff members are encouraged to use minimum plastic. Under the banner of eco club street play by students was performed. Proper waste disposal by students is focused.

3. Move towards paperless office

Although colleges do not have any exclusive software package for paperless offices, all office communication is mainly done by emails and Whatsapp groups. Students are also motivated to submit online submissions instead of hard copies for reduced use of paper. Admin office reuses of papers which are single side printed.

4. Green landscaping with trees and plants

Gardner is appointed to take care of green landscaping.

Context:

17 SDGs were adopted by India, one of the 193 member states at UN summit in September 2015. Since then nation plays proactive role in satisfying SDGs. Formal education system has also shouldered responsibility to promote sound environmental behavior and make future generation understand the importance of “**Learning to live Sustainably**”

College has framed **AGian Eco-club** to encourage, empower ,participate and take up meaningful environmental activities for SDG -6 (Improve Clean Water and Sanitation), SDG -7(Grow Affordable and Clean Energy), SDG -13 (Organize Climate Action), SDG -14 (Develop Life Below Water), SDG- 15(Advance Life On Land).

Objectives of AGian Eco club:

- Motivate the students to keep their surroundings green and clean by undertaking plantation of trees.
- Promote ethos of conservation of water by optimizing the use of water.
- Motivate students to imbibe habits and life style for minimum waste generation, source separation of waste and disposing the waste to the nearest storage point.
- Develop skills of observation, experimentation, survey, recording, analysis, reasoning needed for conserving environment through activities
- Organise seminars, debates, lectures and popular talks on environmental issues in the college to motivate the students to keep their surroundings green and clean.
- Organize tree plantation programmes, E-waste management and awareness programmes such as quiz, essay, painting competitions, rallies, Nukkad Natak (Street play) etc. regarding various environmental issues and educate children about re-use of waste material & preparation of products out of waste

I/C Principal
A. G. TEACHERS COLLEGE, CTE,

- Campaign against use of loud speakers, motivate students not to use crackers and fireworks, recycling of glass and metals, use of unnecessary horns.
- Field visit to environmentally important sites including polluted and degraded sites, wildlife parks, etc.
- Beautify selected road side area with plants and flowers and put campaign boards to generate awareness.
- Any other innovative programme on environmental issues.

AGian Eco club in college will empower students to participate and take up meaningful environmental activities and projects. It is a forum through which students can reach out to influence, engage their parents and neighbourhood communities to promote sound environmental behaviour. It will empower students to explore environmental concepts and actions beyond the confines of a syllabus or curriculum. While everyone, everywhere, asserts the importance of 'learning to live sustainably,' environment remains a peripheral issue in the formal education system. AGian Eco club in college will play an important role in creating environmental awareness amongst the future generation.

- Dustbin to be placed in each classroom for proper collection of waste. Separate dustbins to be placed in college lobby for segregation of plastic waste and paper waste.
- Sweeper to be appointed if not by Government, Management will bear the cost.
- Green waste of the campus needs to be collected and disposed in compost bin to get converted into compost. Compost to be used for college garden.
- Solid waste collection is to be done in black polythene bags.

A very informative program 'Waking up to climate change' was organized and conducted by AG Teachers college, Ahmedabad on 23rd March 2022 aiming at making the trainee teachers aware about the changing climate factors affecting the wildlife.

Mr. Rushi Pathak was our guest expert on wildlife who conducted this session, guided us, the trainee teachers of A.G Teachers college, our college was also the host for this programme and students from other B.Ed colleges of Ahmedabad also came to A.G Teachers college to attend this workshop.

The anchoring of programme was done very effectively by Presha Chauhan who along with Dr. K.H. Yadav green welcomed Mr.Rushi Pathak by giving them a plant, which is a tradition of eco club of A.G Teachers college. After a brief introduction of himself, Mr. Rushi Pathak went on to tell us how the wildlife is a primary indicator of climate change. Being an avid bird watcher himself, he correlated the climate change with how it impacts the aves and other wildlife.

He explained how Gujarat is becoming a home to migrating water birds that primarily depend on stagnant water bodies to hunt and survive. Thol lake in Ahmedabad which is a RAMSAR site is the primary site of nesting and migration of these birds. Here RAMSAR site refers to a wetland site designated to be of international importance under the 'RAMSAR CONVENTION ACT' an intergovernmental environmental treaty established in 1971 by UNESCO. After this our wildlife expert showed us various pictures and videos of different species of birds such as Flamingo, Pelicans, Ducks, Spoonbills and others. He narrated the lifestyle, food habits, mating patterns, nesting pattern of all these birds.

After giving us all this information our wildlife expert concluded the session by giving a short introduction of their organization 'RUSHI PATHAK WILDLIFER' which works for the welfare and rescue of endangered wildlife such as birds, black bucks and snakes.
